

Second Annual New Hampshire Water Conference

April 16, 2008
Grappone Center
Concord, New Hampshire

Greetings!

We are delighted to present the second annual New Hampshire Water Conference (NHWC) on April 16, 2008. We hope that you will be able to join us as we explore this year's theme of Science, Policy, and Management of Water in New Hampshire, and continue to discuss the issues facing the state's water resources. Last year this conference attracted a wide range of professionals, legislators, and citizens from throughout the state and region, and provided an outstanding networking opportunity for everyone interested in water resources. The 2008 conference is expected to generate even more buzz and opportunities than last year – the NHWC is the water conference that you can't afford to miss!

Kevin McGuire
Chair

David Wunsch
Co-chair
