*In 2000-2001, PSU instituted a year-long, open-entry, open-exit term (the General Session) for all off-campus graduate and distance learning courses. Some graduate courses that previously had been taught in Winterim were moved to the General Session, thus adversely impacting enrollment in Winterim. See the General Session report for enrollments in off-campus and distance learning courses.

Note: Students are counted by status, not by the level of course enrolled in (i.e., an undergraduate enrolled in a graduate course is counted with the undergraduates). Includes courses for credit posted to the transcript (omits Audit but includes late withdrawals). FTE in this report represents the total credit hours divided by 12 for undergraduates and by 9 for graduate students.
