

# Sustainability in the United Kingdom

## *A Spring 2010 Field Study Course*

### Course Dates:

May 21<sup>st</sup> to June 5<sup>th</sup> 2010

### Course Locations:

-*Findhorn Ecovillage, Scotland*

<http://www.findhorn.org/index.php?tz=240>

-*Center for Alternative Technology, England*

<http://www.cat.org.uk/index.tmpl?refer=index&init=1>

This course will include a two week field study visit to the United Kingdom with site visits and educational workshops at Findhorn Ecovillage (Scotland) and the Center for Alternative Technology (England) where participants will meet committed professionals with unique competence and experience in the area of sustainability. The course will include the themes of renewable energy, transportation, land use, alternative building practices, water and waste management, and local agriculture practices. This offering is open to all majors for undergraduate or graduate credit. An additional trip fee is required to cover the travel and field study expenses.
