Testing Results from Week of November 9, 2020
Number of tests performed this week: 1349
Results Received from Quest to Date: 0
Results Received Outside of Quest: 7
New Positive Cases Since Last Report:
  Students: 2
  Employees: 0
New Positive Cases Today:
  Students: 1
  Employees: 0
Results Pending: 1349

Total Active Cases: 13

Current Quarantine and Isolation Status
Total Quarantining in New Hampshire: 43 (Including 3 travel quarantine)
Total Quarantining Outside of NH: 14
Total Isolating in New Hampshire: 9
Total Isolating Outside of New Hampshire: 4
PSU Isolation/Quarantine Beds in Use: 15 (75 beds available)

Long-Term Statistics
Total Results Received: 31109
Positive Cases Since 7/29/20: 48
Overall Positivity Rate: 0.15%
Individuals Contacted by R.R. Team: 861

Notes:

- An Active Case is defined as a person who is COVID-19 positive and is within their 10-day isolation period.
- Quarantine refers to the practice of separating individuals who have had close contact (see definition of close contact below) with someone with COVID-19 to determine if they develop symptoms or test positive for the disease. Quarantine lasts for a total of 14 days after the exposure has ended.
- Isolation is a term used for an individual who tests positive for COVID-19. Isolation keeps someone who is sick or tested positive for COVID-19 without symptoms away from others even in their own home.
- Close Contact is defined as any individual who was within 6 feet of an infected person, masked or unmasked, for at least 10 minutes starting from 2 days before the illness onset (or, for asymptomatic patients, 2 days prior to positive specimen collection) until the time the patient is isolated.
