Testing Results December 1, 2020
Number of tests performed: 383
Results Received Quest for last week: 376
Results Received Outside of Quest: 0
Total New Positive Cases From 12/1 Testing: 4
  Students: 3
  Employees: 1
Results Pending from Quest: 7

Total Active Cases: 9

Current Quarantine and Isolation Status
Total Quarantining in New Hampshire: 9
Total Quarantining Outside of NH: 1
Total Isolating in New Hampshire: 6
Total Isolating Outside of New Hampshire: 3
PSU Isolation/Quarantine Beds in Use: 0 (90 beds available)

Long-Term Statistics
Total Results Received: 36089
Positive Cases Since 7/29/20: 79
Overall Positivity Rate: 0.21%

Notes:

- An Active Case is defined as a person who is COVID-19 positive and is within their 10-day isolation period.
- Quarantine refers to the practice of separating individuals who have had close contact (see definition of close contact below) with someone with COVID-19 to determine if they develop symptoms or test positive for the disease. Quarantine lasts for a total of 14 days after the exposure has ended.
- Isolation is a term used for an individual who tests positive for COVID-19. Isolation keeps someone who is sick or tested positive for COVID-19 without symptoms away from others even in their own home.
- Close Contact is defined as any individual who was within 6 feet of an infected person, masked or unmasked, for at least 10 minutes starting from 2 days before the illness onset (or, for asymptomatic patients, 2 days prior to positive specimen collection) until the time the patient is isolated.
