## Cumulative Results Since August 14, 2021

Tests Conducted		Testing Results by Population				All Testing Positive Weekly Cases Reported 
Population	Total		Negative		Positive	
Student	7892	Students	7824	99.14%	68	0.86%
Faculty/Staff	932	Employees	922	98.93%	10	1.07%
Other	0	Other	0	100.00%	0	0.00%
Total	8824	Total	8746	99.12%	78	0.88%

Dashboard includes cumulative test results reported by Quest, Broad, Mailed-in evidence, self-administered tests, and ConvenientMD. Data received as of 9/25/21 12:00 PM

### Important Notes:

- Cumulative data reflects PSU's initiation of protocols starting in late July for regular screening through COVID-19 testing.
- Data are presented according to the date tests are administered. Counts for most recent dates may be incomplete, but will be updated as results are reported
- Quarantine refers to the practice of separating individuals who have had close contact with someone with COVID-19 to determine whether they develop symptoms or test positive for COVID-19. Quarantine also reduces the risk of transmission if an individual is later found to have COVID-19. Quarantine for COVID-19 should last for a period of 14 days after the exposure has ended.
- Isolation keeps someone who is sick or tested positive for COVID-19 without symptoms (asymptomatic) away from others.  
<https://www.cdc.gov/coronavirus/2019-ncov/downloads/COVID-19-Quarantine-vs-Isolation.pdf>
- A close contact is defined as any individual who was within 6 feet of an infected person for at least 15 minutes starting from 2 days before illness onset (or, for asymptomatic patients, 2 days prior to positive specimen collection) until the time the patient is isolated.
- \*Off-campus quarantine locations closed on April 30th, 2021 -- As of 4/21 no new students are being admitted.
- \*\* Result count does not include past positives submitted to "External Results."
