Confirmation of Understanding

PS 4360 - Internship in Psychology

Permission of the instructor must be obtained in the semester before you expect to do the internship. In order to obtain permission, students will need to meet the criteria described in the internship policy. There will be screening, similar to screening for student teaching, based on the criteria. It is possible that not everyone will receive permission to do an internship.

All Psychology majors, regardless of degree or option, may choose their capstone. It may be Psychology Internship, Psychology Seminar, or Independent Research. Any student who does not receive permission for an internship may choose one of the other capstones.

The internship supervisor will be collecting the application materials and consulting with students about possible sites, so see that person for suggestions, information, and permission.

Once you have read and fully understand the PSU Psychology Department’s Internship Policy and all requirements please sign this form and return it to Dr. Herzig’s mailbox in Hyde 401.

I have received, read, and fully understand the Psychology Department’s Policy concerning internships.
