

## **HEAVY METAL CULTURE**

\*Mengers, Emily

*Department of Social Science, [ecmengers@plymouth.edu](mailto:ecmengers@plymouth.edu)*

Faculty Advisor: Dr. Brian Eisenhauer

The goals of my research are to find out why people listen to heavy metal and what impact it has on them. I will look at how the media depicts heavy metal and if fans agree. I will research heavy metal fans and how they perceive the music. I will look at why fans' perspectives on the music is the way it is and if they believe the media impacts the judgment of metal by others. I expect to find that people who listen to heavy metal do not agree with the media's negative depiction of the music.
