

Plan for session with Bakersville teachers 5/30/13

Quick Write:

What would you tell another teacher at your grade level in another school in the district about how the Common Core will affect teaching and learning with your students?

Share and discuss

Things to think about in relation to the Common Core:

Thinking about text : Expanding our definition of text to include print, non-print, fiction, informational, argumentative

Thinking about interdisciplinarity : helping students to look at a subject from a variety of perspectives

Brainstorm Issues or Topics you teach at your grade level. (look for a topic with a socio-political dimension, or look for the socio-political dimension in the topic)

Expanding our Curricular Thinking

Dimensions of an issue or idea: Self and Society, Past and Present, Scientific Inquiry, and Creative Thought

Create a map of your topic, add texts and artifacts

Ask them to do it with a topic of their choosing if time allows

Question for the group:

How would we get from here to there?

Feedback on NWPNH program this year.
