

4/1/13

Dear MLB,

I'm Herika its a pleasure to meet you.
Can I talk to you?

1. The problem is that DR's franchises at 16 are giving up there childhood to play baseball and they give up school.

2. What I want you to do is to allow players to be 18 and to finish high school, and so you can have smarter players and there by bigger.

3. The Reason I want you to do this is because you want this players Older players equals stronger equals better which equals winning more games and that equals more money. And I think that you should have health checks at the camp because if you give them health checks then you don't get players passing out on the field and that would be embarrassing so if you do then if they be healthy that equals winning more games and that equals more money.

4. So that the thing I want you to change and I imagine if it was your child.

5. →

Please write back
Sincerely
Herika

P.S. Thank you for your time

 I love you

to work on

1. I will write about my favorite team, taking ^{more} how I found my problem, the problem is that your making them give up there childhood and school.
2. Why I want you to do this.
3. Why you would want to do it ^{more money}.
4. I need to Repeat my Problems.
5. Sincerely Harika Please Write Me back.

I am going to start with what I like ✓

start now
I AM

Dear MLB,

I My name is Irma i'm a student at Bahersville school. I've read about your Dominican camps. I've noticed that you don't have doctors at your camps and I think that's a problem because one player or more it might get around, and people won't be fans of baseball anymore and you'll have a bad reputation and you have more money. So if you consider getting ^{doctors} done

at the camps ~~this~~ you'll have more money & fans.

Thank you for your time, B.

Write back.

Irma
