

A flower happily lived on a hill above a village.

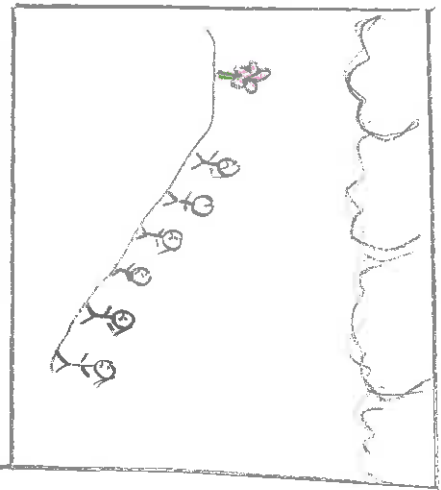

But one day, she began to get sick and die.

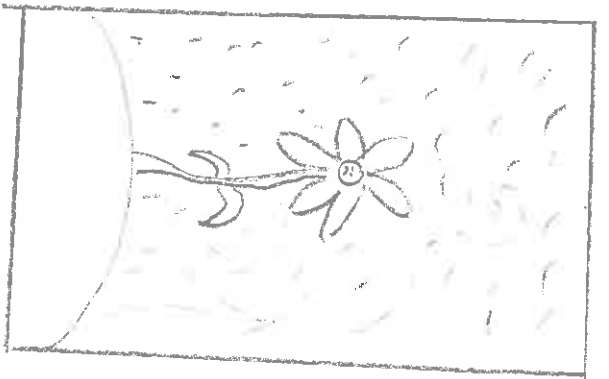

The bee and the flower became friends, and he helped her to

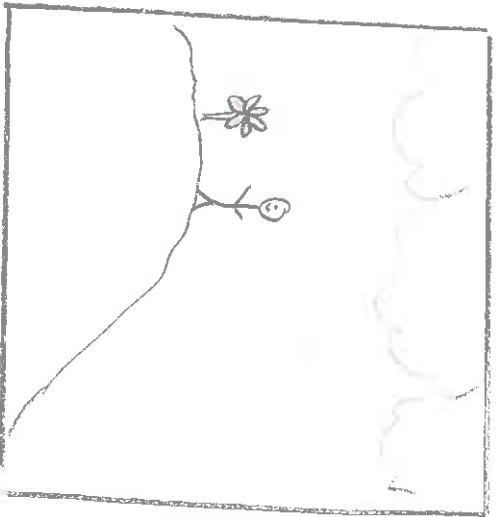

The flower tried to hold on to the bee, but he was blown away in the storm.

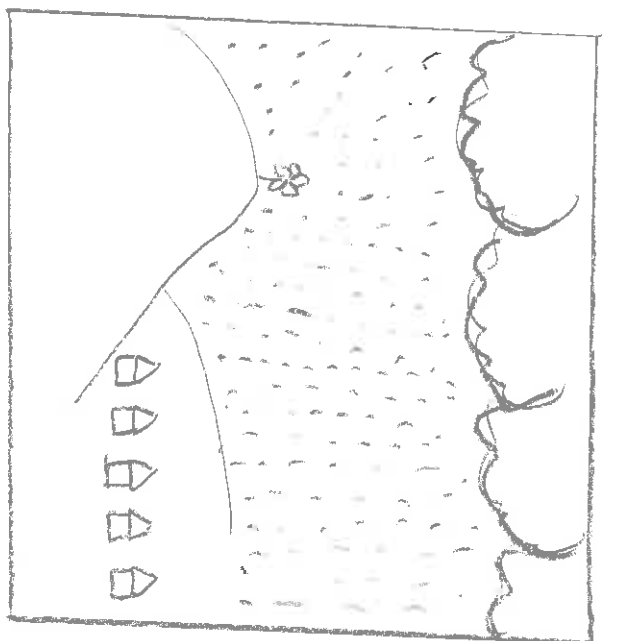

When the people of the village evacuated, they were devastated.

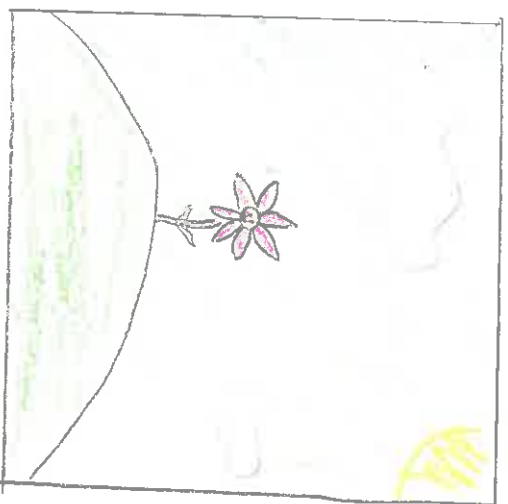

The flower was very sad.

But when they saw the beautiful flower, they regained hope for their

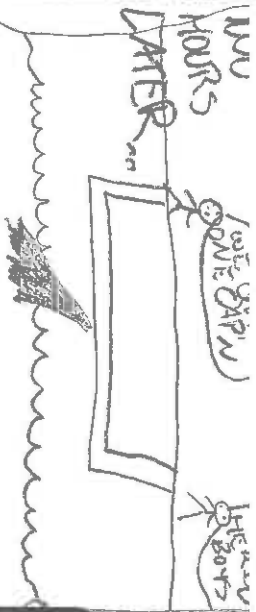

The storm continued on, and flooded the village.

The flower found hope for her new life too.
