Educational Session Descriptions

Shot of Reality

A Shot of Reality is an alcohol awareness show that was created out of serious, painstaking research, but performed by two professional comedians who make the topic engaging. Covering multiple facets of responsible alcohol use, the show keeps students engaged with a powerful combination of levity and realistic discussion.

Stressed AF

College is a major life change, which can be both an exciting and stressful time. Since stress directly affects our mental and physical health, a student's quality of life depends on how they handle the stress they encounter. Stressed AF is a presentation that provides the necessary tools to identify and combat stress in order to learn to live happily with stress.

The C Word: Consent

The C Word: Consent is an educational, highly interactive, Title IX-compliant program. This program uses a combination of audience interaction, improv exercises, and thoroughly researched information to break down walls and have a frank, difficult, but needed conversation about sex, bystander intervention, effective boundary setting, online behavior, and survivor resources.

Diversity & Equity at PSU

This session is an honest, no-offense-taken, collaborative conversation between the facilitators and participants about the reality of diversity in this country, in higher education, and on a personal level. As much as this conversation is about diversity, it's also about being a leader, stepping outside of our own comfort zones to understand others, and knowing when to lead others to a higher level. It's about how we can all get the most from our relationships and what we want collectively.

MEET THE *Panther Days* TEAM
