This PREPaRE training will help participants:

1. Identify the mission phases of crisis management.
2. Describe the critical importance of and components necessary for a balanced approach to comprehensive school safety and crisis preparedness.
3. Identify how to evaluate and implement physical and psychological safety efforts.
4. Identify the purpose, functions, and guiding principles of developing comprehensive safety and crisis teams and plans to include prevention, mitigation, protection, and response.
5. Identify the critical components, including when developing specific functional and threat- or hazard-specific protocols.
6. Identify the major functions of the Incident Command System (ICS).
7. Articulate specific strategies to address challenges associated with media/social media, communication, reunification, and memorials.
8. Describe how to meet diverse needs, including various cultures and students with disabilities; and identify strategies for examining effectiveness of crisis prevention and preparedness.
