

Healthcare Administration

The Healthcare MBA that pays to finish on time

Ready to lead in healthcare? Get your MBA with a focus on Healthcare Administration and save big. If you complete the program within 18 months, your last class is completely FREE.

Why Plymouth State?

Plymouth State University has a long-standing history of providing affordable and accredited business programs, including our MBA with a focus in Healthcare Administration. Designed to provide clinical professionals and career-changers with core business competencies needed to lead in today's complex healthcare systems.

Our 30-36 credit MBA program offers a flexible online format for working professionals to complete the program in as little as 18 months. In addition to MBA core classes, there are 4 courses with a Healthcare Administration focus to build your knowledge base and develop leadership skills.

Learning and Career Outcomes

- Professional advancement with direct pathways to management and specialized roles, while building business expertise for clinicians and technicians.
- Skill acquisition through immediate real-world applications and building a toolkit covering everything from revenue and budget cycles to utilizing AI and data analytics to optimize patient care.
- Addresses today's industry trends including shifts to outpatient care, AI integration, and the aging population.
