Client Waitlist Information- Spring 2026

- Due to the high student demand for in-person counseling services and limited resources, the Counseling Center may need to place students on a waitlist.
- If on a waitlist, when an appointment becomes available that matches your schedule, we will call you on the phone to offer the appointment. You might consider saving the Center as a contact on your phone, with whatever name you feel comfortable. Please note: the Center does not communicate via email or text.
- Please be sure to have your voice-mail set-up on your phone, so you can receive a message if you are unable to answer the call.
- If a message is left on your voice-mail, please call back that day to confirm or decline the appointment. If you do not return our call by the end of the next day, your name will be removed from the waitlist.
- Please be informed that if you do not arrive for your first scheduled appointment, your name will be removed from the waitlist and we will assume that you no longer need our services.
- If you are no longer interested in services at the Center, please contact us so we can remove your name from the waitlist.
- While you are waiting for an appointment, we encourage you to consider accessing the following resources available to all PSU Students.
 - TimelyCare- Online counseling and support
