10 Steps of Housing Selection

1. Complete a Defined Community Interest application- Link under Forms and Policies. Due Monday, March 24th (Optional)
2. Initiate your housing application- via the link on the Residential Life web page.
3. Search for roommates using the application Roommate Search and Grouping step.
4. Decide which selection phase in which you want to participate. Have a back-up plan(s).
5. Watch your PSU email for your selection time.
6. Determine your/your group leader’s availability for your/group’s selection time. Submit a proxy if you or no one from your group is available.
7. Select your space:
   a. Online: you/group leader will access your application, at your appointed time, and click through to the Room Selection step, choose a building and then a room. Group leader will assign all in group.
   b. Via proxy: Residential Life staff will choose a space for you/your group at your selection time based on the availability of your preferences.
8. No spaces: return to your application to regroup for the next phase (your back-up plan). Repeat for each phase as needed.
9. Booked a space: Great! Check your application status page to confirm you are assigned as intended.
10. Choose an eligible meal plan through the Meal Plan step on the application.

Please note and adhere to due dates. See below for additional information.

Housing applications are open for edits throughout the selection process except during the temporary suspensions. This allows students to regroup as needed in order to secure a space.

Housing applications do not have a submit button. They are created once a student clicks past the Term Selector and valid once a student enters their PSU ID in the Lease and Dining Agreement step. The lease does not bind students who have met the live on requirement until a space has been selected/booked.

The post-selection wait list will be available on our web page following the conclusion of the selection process.
